## Profile Summary

Passionate about coding and problem-solving, I'm a dedicated Computer Science student specializing in AI, Machine Learning, and full-stack development. I love turning ideas into intelligent, efficient systems through innovation and clean design.

## Technical Skills

**Programming:** Java, Python, C

**Core Skills:** DSA, Database Management, MySQL

**AI/ML:** Artificial Intelligence, Machine Learning, Data Processing

**Web Development:** HTML, CSS, JavaScript

## Projects

**Finance Assistant:** A chatbot that responds intelligently to user queries about finance-related topics using AI-based interaction.

**Intern Portal:** A web platform connecting students, mentors, and industries for internship opportunities.

**Blood Management System:** A website managing donor and recipient data, enabling easy blood request matching.

**ClickNGo:** A Java + MySQL project for movie ticket booking and management.

**Hospital Management System:** A Java + MySQL project that simplifies hospital operations like patient appointment booking.

## Education

**B.Tech in Computer Science and Engineering**

CMR Institute of Technology, Hyderabad (2023–2027)

## Interests & Strengths

AI-driven systems & automation

Building efficient backend architectures

Continuous learning & collaboration
